

**Please do not deport this bear.**

THIS IMAGE, FOUND under a motorway flyover in Bristol in August 2006, would like to be adopted by everyone who takes a dim view of the UK government's policy of imprisoning people without trial or time limit, persecuting them and making them destitute, just for being foreign, especially if they are brown or black or not very well off, and then boasting to the media about how much misery they've caused.

IT IS HAPPY to be copied, shared, printed on tee-shirts, turned into rubber stamps, stencilled on your walls, and generally spread around, **especially** at those festive times of year, when governments go on holiday and humanity briefly starts to get the feel of being human again. But please respect its integrity: i.e. no tinkering with it, and you may absolutely not sell it - unless all profit goes to support the fight for migrants' rights and against the lunacy of immigration controls, e.g. the Campaign to Close Campsfield: <http://www.closecampsfield.org.uk>
